

# High Precision 2K-CNC Dosing and Mixing Unit *ES-IDM3000*

## 2C CNC-High-Precision Dosing and Mixing Unit $< \pm 0,5\%$

- wheel-mounted system with V2A casing
- dynamic mixing head with V2A
- simple touchscreen operation
- CAN-bus-controls (3K possible)
- interference resistant volumeter controls
- pot life monitoring incl. blind shot
- easy to clean and low-maintenance
- rotor speed monitoring
- connection: LAN / CAN / USB
- remote maintenance via internet
- proven worldwide since 25 years
- custom features possible

### Specifications:

power supply: 220 – 240 V/50 Hz  
dosing output: 100-2500 g/min.  
dimensions WDH: 750 x 850 x 1700 mm

container capacity: 2 x 30 Liter  
weight: 108 kg

We reserve the right to make technical alterations!
