

ES-D800 CE

2C Precision Epoxy Resin Dosing Unit 0,5%

- stainless steel body IP65
- dosing precision $< \pm 0,5\%$
- easy to operate
- LCD display for monitoring levels
- resin site completely heated
- gear pumps and electric engine
- easy to clean and low-maintenance
- easy to fill due to large openings
- easy maintenance access (door)
- level warning $< 10\%$ fill levels
- proven worldwide since 25 years
- mixing ration adjustment via chain wheels

Specifications:

power supply: 220 – 240 V/50 Hz
dosing output: ca. 800 g/min.
dimensions WDH: 2060 x 1050 x 2000 mm

container capacity: 2 x 25 Liter
weight: ca. 42 kg
